

5050 RGB Flexible LED strip

LF1002Y-RGB • Flexible LED Light Strip

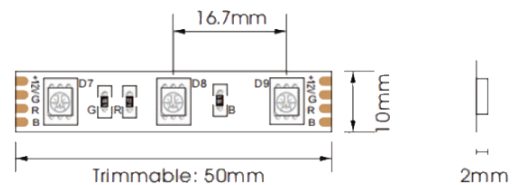

Product highlights

- Ideal for backlight application
- High Efficient quality 5050 RGB LED chips
- Easy Mounting with 3M doublesided tape
- Variable lengths available upon request
- RGB controller available upon request

Specifications

LED type	5050 RGB
Volt (Vdc)	12
Wattage (total)	Max.6.5W/meter
IP class	IP20
CRI	--
R(610-630nm WL)	140lm/meter
G(515-525nm WL)	280lm/meter
B(460-470nm WL)	66lm/meter
Length (mm)	To be customized
Width (mm)	10
Depth (mm)	2
LED Q'ty	60pcs LEDs/meter
Material	PCB
Color / Finish	White
Input cable length (m)	1
Connection	Connector/terminal
Mounting	3M double-sided tape(incl.)
Dimmer/switch function	-(optional with RGB controller)

Safety

Safety Class	Class III (SELV)
CE	yes
UKCA	yes
UL	yes
SAA	yes
Rohs	yes
