

# Solid Aluminum LED Spot

SP001L • Solid Aluminum LED Spot 12Vdc

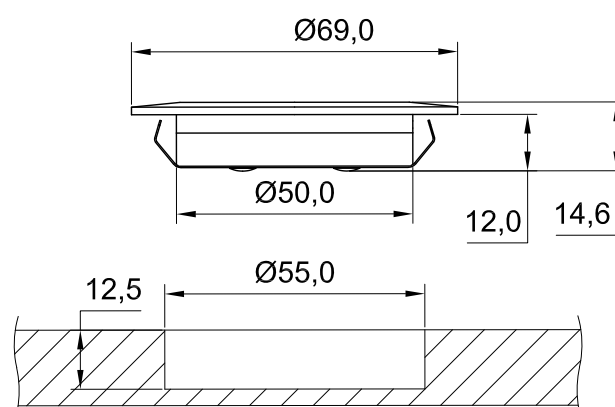

## Product highlights

- Lathed Solid Aluminum Lampbody
- High Efficient LEDs Ra>90 (Ra>95 Optional)
- Directional light via optical lens to minimize glare
- Mounting with SS clips
- Can be retrofitted with mounting ring

## Specifications

|                        |                  |
|------------------------|------------------|
| LED type               | 3000K            |
| Volt (Vdc)             | 12               |
| Wattage (total)        | 2.4              |
| IP class               | IP44             |
| CRI                    | 90 (95 optional) |
| LED Q'ty(pcs)          | 12               |
| Energy class           | D                |
| Lifetime LED (hrs)     | 50000            |
| Diameter (mm)          | 69               |
| Depth (mm)             | 15               |
| Connection             | Connector        |
| Material               | Aluminum         |
| Color / Finish         | Aluminum/Black   |
| Input cable length (m) | 2                |
| Mounting brackets      | Included         |
| Dimmer/switch function | -                |
